

> **PRODUCTS > ALUMINIUM CASES > Slimline**

Flattish attache case in exclusive design. Shapely light metal profiles from novel system elements. The plastic plates in "Hagedorn grey" with the solid, chromed swing lock finishes the elegant design. That case is by the frame mode of construction available in different lengths and widths. The size is defined by the thickness of the profiles (inside sizes 17 or 38 mm). Cases if desired printable.

- Aluminium light metal frame from novel system elements
- Side frames from grey plastic plates
- Chromium lock

options:

- Length and width freely selectable
- If desired with very detailed interior available
- Handhold
- Different locks available
- Side plates freely selectable
